PUBLIC SCHOOLS. EDITOR HERALD:-While the School Dr cors are having their say, permit a few questions asked too. First: Is it not required of the County Superin-tendent to visit the public schools? Perhaps if he would, he would find five days out the week a teacher with ten or twelve pupils, a number of them un-der six. No order, no studying, love der six. No order, no studying, love tetters flying acr ss the room and a conversation party in general; when called to recite, do not know their lessons of

course and the same one is assigned for the next day.

Next: Is the teacher's salary 'not overrated? For instance, the School Director thinks \$25 and \$30 a small salary for such a teacher. Same director thinks that has a family tor employs a hireling that has a family to support to do the hardest work that con be done on a farm and thinks \$10 per month a high price to pay him Also employs boys about fift-en to do Heaven were opened and all the earth men's work and pays \$5 and \$6 per are discouraged, having high taxes to pay for teachers to derive the benefit? Directors saying, my daughter is well qualified to teach and shall have the money if she does ut have a single scholar. True enough, many are pre-

tended graduates, but not reschers Last but not least, the ones thinking one school in a district sufficient, kindly consider that the country does or four males from the center of the di-trict and have an only daughter, cannot provide a way for her to ride, and if she attends will have to go through much in some places along. not afford streets and pavements, but through mud, in some places almost impussable for horses. Again, to others with small e lidren, the distance is too rapid progress.
